PROFESSIONAL SUMMARY

Results-driven Software/QA engineer with a foundation in full-stack applications using Java, Python, React, and AWS cloud services. Skilled in building scalable APIs, deploying cloud-based solutions, and collaborating cross-functionally in agile environments to deliver impactful technology solutions.

EDUCATION

University of California, Riverside

B.S. Computer Science with Business Applications

Riverside, CA

2021 - 2025

Relevant Coursework: Data Structures and Algorithms, Software Development, Data Analysis Methods, Technical Communications, Probability and Statistics, Operating Systems, Artificial Intelligence, Networking, Cybersecurity

TECHNICAL SKILLS

Languages / Frameworks: Python, C/C++, C#, JavaScript/Typescript, React, Java, SQL, Bash, HTML, CSS, React Native, Vue.js, R, Flask, FastAPI, Expo, JSON, Node.js, MongoDB, Playwright

Developer Tools: Cursor, CI/CD, Codex, Claude, Azure, Git/GitHub, OpenAI Console, Firebase/Firestore, Postman, Jupyter Notebook, Figma, Agile Workflow, Microsoft 365

CERTIFICATIONS

AWS Certified Cloud Practitioner 🦋 — Asana Certified Workflow Specialist 🦋

EXPERIENCE

Fremont Bank

AI Software Engineer Intern

Livermore, CA

May 2026 – Present

- Researched and prototyped AI-powered visual regression testing solutions using Playwright MCP, Selenium, and LLM agents to automate screenshot validation and improve efficiency and scalability of testing workflows.
- Evaluated and compared AI-driven validation approaches to improve visual test accuracy, minimize false positives, and streamline automated testing workflows within CI/CD pipelines.

Idler

QA Engineer

San Francisco, CA

Dec 2025 – Apr 2026

- Reviewed LLM coding agent performance by assessing test suites and code diffs across various complex codebases.
- Improved AI evaluation reliability and fairness with technical QA of golden patches, failure analyses, and rollouts.

Handshake

AI Data Annotator / QC Specialist

San Francisco, CA

Nov 2025 – Jun 2026

- Contributed to the development of large-scale multimodal AI training datasets through data annotation, validation, labeling, edge-case analysis, and quality control to ensure high-quality training data and model performance.

PROJECTS

GymReact [Demo](#)

AI-Powered Cross-Platform Fitness App

Aug 2025

- Developed and published a cross-platform mobile app with **React Native** and **Expo**, integrating the **OpenAI API** for personalized workout plans and intelligent activity tracking.
- Utilized **React Context API** and **React Native Paper**, with **Firebase Auth** for secure, structured user data.
- Engaged in Agile development practices with **GitHub code reviews** and **issue tracking** improving collaboration.

CapyReads [GitHub](#)

Manga Web App

Jul 2025

- Created a full-stack web application using **React**, **JavaScript**, **HTML**, and **CSS** that allows users to browse, read, and favorite trending manga, supporting 100+ active users.
- Designed a responsive frontend with **Material UI** and **TypeScript**, integrated with a robust **REST API** for async fetching **JSON** data and session handling.
- Deployed on **AWS EC2** with auto-scaling and **Cypress** end-to-end tests, reducing latency and increasing stability.
